This Contract offers an indefinite quantity of sales, and while substantial volume is anticipated, sales and sales volume are not guaranteed.

B. **WARRANTY.** Supplier warrants that all Equipment, Products, and Services furnished are free from liens and encumbrances, and are free from defects in design, materials, and workmanship. In addition, Supplier warrants the Equipment, Products, and Services are suitable for and will perform in accordance with the ordinary use for which they are intended. Supplier's dealers and distributors must agree to assist the Participating Entity in reaching a resolution in any dispute over warranty terms with the manufacturer. Any manufacturer's warranty that extends beyond the expiration of the Supplier's warranty will be passed on to the Participating Entity.

It is the Supplier's responsibility to ensure Sourcewell receives the most current information.

3. PRICING

All Equipment, Products, or Services under this Contract will be priced at or below the price stated in Supplier's Proposal.

When providing pricing quotes to Participating Entities, all pricing quoted must reflect a Participating Entity's total cost of acquisition. This means that the quoted cost is for delivered Equipment, Products, and Services that are operational for their intended purpose, and includes all costs to the Participating Entity's requested delivery location.

Regardless of the payment method chosen by the Participating Entity, the total cost associated with any purchase option of the Equipment, Products, or Services must always be disclosed in the pricing quote to the applicable Participating Entity at the time of purchase.

A. **SHIPPING AND SHIPPING COSTS.** All delivered Equipment and Products must be properly packaged. Damaged Equipment and Products may be rejected. If the damage is not readily apparent at the time of delivery, Supplier must permit the Equipment and Products to be

returned within a reasonable time at no cost to Sourcewell or its Participating Entities. Participating Entities reserve the right to inspect the Equipment and Products at a reasonable time after delivery where circumstances or conditions prevent effective inspection of the Equipment and Products at the time of delivery. In the event of the delivery of nonconforming Equipment and Products, the Participating Entity will notify the Supplier as soon as possible and the Supplier will replace nonconforming Equipment and Products with conforming Equipment and Products that are acceptable to the Participating Entity.

Supplier must arrange for and pay for the return shipment on Equipment and Products that arrive in a defective or inoperable condition.

Sourcewell may declare the Supplier in breach of this Contract if the Supplier intentionally delivers substandard or inferior Equipment or Products.

Equipment, Products, or Services may be added or removed from the Hot List at any time through a Sourcewell Price and Product Change Form as defined in Article 4 below.

Hot List program and pricing may also be used to discount and liquidate close-out and discontinued Equipment and Products as long as those close-out and discontinued items are clearly identified as such. Current ordering process and administrative fees apply. Hot List Pricing must be published and made available to all Participating Entities.

4. PRODUCT AND PRICING CHANGE REQUESTS

Supplier may request Equipment, Product, or Service changes, additions, or deletions at any time. All requests must be made in writing by submitting a signed Sourcewell Price and Product Change Request Form to the assigned Sourcewell Supplier Development Administrator. The new pricing restatement must include all Equipment, Products, and Services offered, even for those items where pricing remains unchanged.

A Participating Entity's authority to access this Contract is determined through its cooperative purchasing, interlocal, or joint powers laws. Any entity accessing benefits of this Contract will be considered a Service Member of Sourcewell during such time of access. Supplier understands that a Participating Entity's use of this Contract is at the Participating Entity's sole convenience and Participating Entities reserve the right to obtain like Equipment, Products, or Services from any other source.

Typically, a Participating Entity will issue an order directly to Supplier or its authorized subsidiary, distributor, dealer, or reseller. If a Participating Entity issues a purchase order, it may use its own forms, but the purchase order should clearly note the applicable Sourcewell

contract number. All Participating Entity orders under this Contract must be issued prior to expiration or cancellation of this Contract; however, Supplier performance, Participating Entity payment obligations, and any applicable warranty periods or other Supplier or Participating Entity obligations may extend beyond the term of this Contract.

Supplier's acceptable forms of payment are included in its attached Proposal. Participating Entities will be solely responsible for payment and Sourcewell will have no liability for any unpaid invoice of any Participating Entity.

B. ADDITIONAL TERMS AND CONDITIONS/PARTICIPATING ADDENDUM. Additional terms and conditions to a purchase order, or other required transaction documentation, may be negotiated between a Participating Entity and Supplier, such as job or industry-specific requirements, legal requirements (e.g., affirmative action or immigration status requirements), or specific local policy requirements. Some Participating Entities may require the use of a Participating Addendum, the terms of which will be negotiated directly between the Participating Entity and the Supplier or its authorized dealers, distributors, or resellers, as applicable. Any negotiated additional terms and conditions must never be less favorable to the Participating Entity than what is contained in this Contract.

C. SPECIALIZED SERVICE REQUIREMENTS. In the event that the Participating Entity requires service or specialized performance requirements not addressed in this Contract (such as e-commerce specifications, specialized delivery requirements, or other specifications and requirements), the Participating Entity and the Supplier may enter into a separate, standalone agreement, apart from this Contract. Sourcewell, including its agents and employees, will not be made a party to a claim for breach of such agreement.

D. TERMINATION OF ORDERS. Participating Entities may terminate an order, in whole or in part, immediately upon notice to Supplier in the event of any of the following events:

The Administrative Fee must be included in, and not added to, the pricing. Supplier may not charge Participating Entities more than the contracted price to offset the Administrative Fee.

The Supplier will submit payment to Sourcewell for the percentage of administrative fee stated in the Proposal multiplied by the total sales of all Equipment, Products, and Services purchased

20	What percentage of your sales are to the governmental sector in the past three years	Most of our sales are to municipalities such as State DOT's, Counties and Cities and these represent nearly 70% of all our sales volume over the past three years.	*
21	What percentage of your sales are to the education sector in the past three years	Gradall does not sell directly to nor track sales activity related to the education sector although municipalities and contractors most likely buy and use our equipment for construction and maintenance purposes related to education.	*
22	List any state, provincial, or cooperative purchasing contracts that you hold. What is the annual sales volume for each of these contracts over the past three years?	Sourcewell is the only cooperative purchasing contract that Gradall holds. We recommend it above all other purchasing solutions and have built Sourcewell into our proprietary quoting system. A few Gradall Dealers hold local cooperative purchasing contracts with our support such as GSA or HGAC, for example.	*
23	List any GSA contracts or Standing Offers and Supply Arrangements (SOSA) that you hold. What is the annual sales volume for each of these contracts over the past three years?	Federal Contracts Corporation (FCC) has always held our GSA contract and we typically sell 1-3 machines through them each year to various military bases.	*

Table 6: Ability to Sell and Deliver Service

Describe your company's capability to meet the needs of Sourcwell participating entities across the US and Canada, as applicable. Your response should address in detail at least the following areas: locations of your network of sales and service providers, the number of workers (full-time equivalents) involved in each sector, whether these workers are your direct employees (or employees of a third party), and any overlap between the sales and service functions.

Line Item	Question	Response *	
26	Sales force.	Gradall sells to municipalities exclusively through a dedicated, independent Distribution Network where the Dealers have Assigned Areas of Responsibility (APR) without any overlap. Assisting and working with the Dealers are Gradall Account Managers who help with quoting, demonstrations, customer visits, and shows. They generally ensure that the Dealer promotes and prioritizes the product line properly. Gradall Account Managers are direct, full-time employees of Gradall Industries.	*
27	Dealer network or other distribution methods.	Gradall has a total of 28 privately owned, independent dealers which includes a total of 180 brick-and-mortar, sales & service locations and over 600 dedicated Salesmen and 500 product support personnel and technicians.	*
28	Service force.	<p>Along with a complete sales team, Gradall employs a team of full-time product support managers to assist our dealer network with technical issues, training, parts support, customer visits and warranty questions. They are available from 8-5 EST at 1-800-445-4752 and each dealer has an assigned product support manager with direct cell phone access. Customers are instructed how to contact their appropriate Gradall dealer in the event of a question or issue.</p> <p>The Gradall dealer network employs over 500 dedicated product support personnel & technicians. Unlike the automotive or over-highway truck industries, our dealers service the construction equipment industry and are used to traveling to the customer's worksite or equipment yard in large service trucks to perform any required maintenance or repairs. Additionally, most of our dealers are capable of complete-machine warranty work because they have taken the additional steps to be certified for work on the Volvo Penta engines that we use in most of our excavators. If a customer experiences an issue they only have one call to make to get it handled: the Gradall dealer.</p>	*

29	Describe the ordering process. If orders will be handled by distributors, dealers or others, explain the respective roles of the Proposer and others.	<ol style="list-style-type: none"> 1. Municipality contacts their local Gradall dealer and asks for a Sourcewell machine quote. 2. Dealer salesman determines appropriate model, options & attachments. 3. Dealer salesman creates a Sourcewell-specific quote from within the Gradall quoting system and presents it to the municipality. If required, Connie Popovich is available for assistance with the creation of the Sourcewell quote. 4. The Sourcewell-specific quote includes contract pricing, a freight estimate based upon actual cost, and any open market items, if applicable. 5. If the quote is acceptable, the Municipality cuts a purchase order to the dealer. 6. Dealer places a matching machine order with Gradall. 7. Gradall builds the machine to the quote specification and ships it to the dealer. 8. Dealer receives the machine and PDI's it for delivery to the municipality. 9. Dealer delivers machine and performs operator familiarization, as required. 10. Dealer registers the machine through the Gradall product support website. 11. Gradall logs the Sourcewell sale and compiles sales information for quarterly report and fee payment to Sourcewell. 	*
30	Describe in detail the process and procedure of your customer service program, if applicable. Include your response-time capabilities and commitments, as well as any incentives that help your providers meet your stated service goals or promises.	Our privately-owned and independent dealers own full-service locations and are completely responsible for product support including parts, training, maintenance, service, and warranty. The level of support can vary dealer to dealer; however, most have existing programs that guarantee onsite visits within 24 hours and an available 24/7 hotline.	*
31	Describe your ability and willingness to provide your products and services to Sourcewell participating entities in the United States.	Sourcewell is our only factory-direct cooperative purchasing contract and we will sell to any member through our Dealer Network in the United States.	*
32	Describe your ability and willingness to provide your products and services to Sourcewell participating entities in Canada.	Currently, Sourcewell sales by Gradall into Canada are non-existent primarily due to the slow take-up of cooperative purchasing contracts especially for large capital expenditures like a Gradall excavator. However, interest is growing among municipalities in Canada to utilize cooperative purchasing solutions and our quoting activity is increasing so it is only a matter of time until sales begin to occur there. Since we support Sourcewell quoting through our factory quoting system to all our dealers, including those in Canada, we will be ready when that day comes. In the meantime, we will continue to be involved in any effort by Sourcewell to pioneer acceptable cooperative purchasing solutions such as Canoe in Canada.	*
33	Identify any geographic areas of the United States or Canada that you will NOT be fully serving through the proposed contract.	There are no geographic areas in the United States or Canada that Gradall cannot support sales of machines through the Sourcewell contract.	*
34	Identify any Sourcewell participating entity sectors (i.e., government, education, not-for-profit) that you will NOT be fully serving through the proposed contract. Explain in detail. For example, does your company have only a regional presence, or do other cooperative purchasing contracts limit your ability to promote another contract?	Sourcewell is the only cooperative purchasing contract we own, maintain, and support at Gradall. All other contracts are owned through specific dealers regionally or by FCC for the GSA contract. The ability to generate a Sourcewell quote from within our quoting system is natively supported and with one click a Sourcewell end-user and matching dealer quote can be created by any Gradall dealer. We will willingly – and prefer – to sell to any Sourcewell member through our Dealer Network anywhere in the United States & Canada, and many of our dealers actively pursue using the contract for all their Gradall municipal sales.	*
35	Define any specific contract requirements or restrictions that would apply to our participating entities in Hawaii and Alaska and in US Territories.	Currently, we do not have a dedicated Dealer in Alaska or Hawaii although we do sell machines there occasionally. This is usually done through one of our existing Dealers who have a presence there or through a Dealer who the Customer already has an existing business relationship. These are not large markets for our excavators so finding a dedicated Dealer willing to invest properly in the support of the product line is difficult given the sales volumes involved so it is handled on an ad hoc basis.	*

Table 7: Marketing Plan

Line Item	Question	Response *
36	Describe your marketing strategy for promoting this contract opportunity. Upload representative samples of your marketing materials (if applicable) in the document upload section of your response.	<ul style="list-style-type: none"> • Gradall's website includes a Sourcewell landing page: http://www.gradall.com/sourcewell.php. • All marketing material includes the Sourcewell logo and where possible it links to our Sourcewell landing page. • We attend shows and visit customers with Sourcewell specific handouts. • Dealers are specifically trained to utilize the Sourcewell contract wherever possible. • The Gradall Quoting System (GIQuote.com) includes native, one-click support for Sourcewell quotes.
37	Describe your use of technology and digital data (e.g., social media, metadata usage) to enhance marketing effectiveness.	Gradall retains an advertising agency, and they manage all aspects of our marketing: Web, Email Blasts, Group Texts, Lead Management, Literature, Advertising (all forms), Dealer Coop Material, YouTube (Gradall TV), Twitter, Facebook, etc. Before each calendar year we meet and put together a comprehensive marketing plan that addresses how we plan to attack our various markets. This assures us of a consistent, centralized, and highly focused approach to proper brand management and machine sales. Sourcewell is always a significant part of that planning process, and any marketing work includes the promotion of the contract.
38	In your view, what is Sourcewell's role in promoting contracts arising out of this RFP? How will you integrate a Sourcewell-awarded contract into your sales process?	Gradall has a proprietary quoting system with Sourcewell quotes built right in. Pick a Gradall Excavator Model, Terms, Warranty, Options & Attachments then print/email off as a Sourcewell Quote. Very simple and efficient process that has helped us to effectively promote the Sourcewell Contract.
39	Are your products or services available through an e-procurement ordering process? If so, describe your e-procurement system and how governmental and educational customers have used it.	Gradall does not support an e-procurement ordering process due to the complexity and customization required by many of our Municipal Customers.

Table 8: Value-Added Attributes

Line Item	Question	Response *	
40	Describe any product, equipment, maintenance, or operator training programs that you offer to Sourcewell participating entities. Include details, such as whether training is standard or optional, who provides training, and any costs that apply.	Our dealers can provide a quote for formal and extensive operator and maintenance training as requested by the customer. In addition, we provide operator familiarization training with every machine delivery at no charge. This is typically about 4 hours of training at the customer location to ensure they know the basics needed to operate and maintain the machine properly and safely. More advanced operator and technical training is available upon request.	*
41	Describe any technological advances that your proposed products or services offer.	Gradall Excavators use the latest components available to the construction industry. Our list of Vendors includes but is not limited to: Bosch Rexroth, Allison, ZF, Meritor, Parker, Volvo, Freightliner, DMF, and Crenlo. Each machine uses state-of-the-art Can Bus processors and programming that can be configured with the use of a laptop and they all have a standard connection point for any telematics solution that the customer may prefer to use.	*
42	Describe any "green" initiatives that relate to your company or to your products or services, and include a list of the certifying agency for each.	Gradall Industries takes sustainability very seriously and has designed its current products to utilize one diesel engine per machine as opposed to the more traditional truck engine and pony engine layout. Single engine designs are less costly to manufacture, simpler to operate and maintain, and are much friendlier to the environment.	*
43	Identify any third-party issued eco-labels, ratings or certifications that your company has received for the equipment or products included in your Proposal related to energy efficiency or conservation, life-cycle design (cradle-to-cradle), or other green/sustainability factors.	Gradall's parent company, Alamo Group Inc. (NYSE: ALG) has announced a 2030 target to reduce its greenhouse gas emissions by 50% as compared to its 2019 base year. This target covers Scope 1 & 2 emissions as defined in The Greenhouse Gas (GHG) Protocol Corporate Accounting and Reporting Standards published by the World Business Council for Sustainable Development and World Resources Institute. Additional information regarding the Company's sustainability goals and actual emissions for the past three years will be included in its forthcoming Sustainability Report.	*
44	Describe any Women or Minority Business Entity (WMBE), Small Business Entity (SBE), or veteran owned business certifications that your company or hub partners have obtained. Upload documentation of certification (as applicable) in the document upload section of your response.	We are not a WMBE or SBE.	*
45	What unique attributes does your company, your products, or your services offer to Sourcewell participating entities? What makes your proposed solutions unique in your industry as it applies to Sourcewell participating entities?	Gradall Excavators are the only telescopic-boom excavator widely sold in North America. This boom design is uniquely suited for use by municipalities & contractors for ditching, mowing, natural disaster cleanup and road/bridge maintenance. Additionally, the truck-mounted models allow for single operator use out of a dedicated maintenance yard without the need for a haul truck and trailer. These machines can be dispatched efficiently to many locations throughout the workday. For these reasons most municipalities in North America own and operate Gradall Excavators as opposed to owning a conventional knuckle-boom excavator which are optimized for mass excavation at one job.	*

Table 9: Warranty

Describe in detail your manufacturer warranty program, including conditions and requirements to qualify, claims procedure, and overall structure. You may upload representative samples of your warranty materials (if applicable) in the document upload section of your response in addition to responding to the questions below.

Line Item	Question	Response *	
46	Do your warranties cover all products, parts, and labor?	Yes, Standard Warranty on Gradall Excavators is 24 months or 3,000 operating hours, whichever comes first from the date of delivery to the customer. We also offer Extended Warranty for additional warranty. For a full description of our warranty policy see the uploaded Gradall Warranty Certificate	*
47	Do your warranties impose usage restrictions or other limitations that adversely affect coverage?	We do not have usage restrictions. Per our policy, we cover defects in material & workmanship when the equipment is used as designed.	*
48	Do your warranties cover the expense of technicians' travel time and mileage to perform warranty repairs?	Our warranty covers up to 3 hours of travel time per incident.	*
49	Are there any geographic regions of the United States or Canada (as applicable) for which you cannot provide a certified technician to perform warranty repairs? How will Sourcewell participating entities in these regions be provided service for warranty repair?	Gradall has a Dealer Network across the entire United States & Canada and can provide trained technicians for required repairs. We also provide trained service technicians at the factory to help with any issues in the field	*
50	Will you cover warranty service for items made by other manufacturers that are part of your proposal, or are these warranties issues typically passed on to the original equipment manufacturer?	Excavators will be covered bumper to bumper by our dealer network with the exception of the Allison Transmission and the Volvo engine. During delivery the customer is always informed to call the dealer for any problems and the dealer can decide when to involve Allison, Volvo Penta, Gradall etc.	*
51	What are your proposed exchange and return programs and policies?	Whole goods: No exchange program. If a part is defective, it would be covered under our standard 24-month warranty. Service Parts: Service Parts warranty is one year	*
52	Describe any service contract options for the items included in your proposal.	Service contracts are offered thru our dealer networks but not offered by Gradall thru the Sourcewell Contract.	*

Table 10: Payment Terms and Financing Options

Line Item	Question	Response *	
53	Describe your payment terms and accepted payment methods.	Our payment terms are Net 30. However, our dealer's payment terms may vary.	*
54	Describe any leasing or financing options available for use by educational or governmental entities.	We provide access to 3rd party leasing or financing options upon request. Our dealers also provide other financing options which are available to customers	*
55	Describe any standard transaction documents that you propose to use in connection with an awarded contract (order forms, terms and conditions, service level agreements, etc.). Upload a sample of each (as applicable) in the document upload section of your response.	The Gradall quoting system can generate a direct to customer quote with sourcewell contract pricing, discounting, contract number and sourcewell logo. This is the only unique transactional document and an example of one is included in the attached documentation.	*
56	Do you accept the P-card procurement and payment process? If so, is there any additional cost to Sourcewell participating entities for using this process?	No. All purchase orders go through our authorized dealer and we have never been ask to accept it.	*

Table 11: Pricing and Delivery

Provide detailed pricing information in the questions that follow below. Keep in mind that reasonable price and product adjustments can be made during the term of an awarded Contract as described in the RFP, the template Contract, and the Sourcewell Price and Product Change Request Form.

Line Item	Question	Response *	
57	Describe your pricing model (e.g., line-item discounts or product-category discounts). Provide detailed pricing data (including standard or list pricing and the Sourcewell discounted price) on all of the items that you want Sourcewell to consider as part of your RFP response. If applicable, provide a SKU for each item in your proposal. Upload your pricing materials (if applicable) in the document upload section of your response.	We offer Sourcewell members 4% off MSRP List Price for the entire completed and quoted machine. See attached for pricing documentation.	*
58	Quantify the pricing discount represented by the pricing proposal in this response. For example, if the pricing in your response represents a percentage discount from MSRP or list, state the percentage or percentage range.	4% off MSRP List Price.	*
59	Describe any quantity or volume discounts or rebate programs that you offer.	Volume discount will be taken into consideration by our dealers and Gradall Industries at time of order based on the number of machines or repeat purchases from the member.	*
60	Propose a method of facilitating "sourced" products or related services, which may be referred to as "open market" items or "nonstandard options". For example, you may supply such items "at cost" or "at cost plus a percentage," or you may supply a quote for each such request.	Sourced goods or non-sourcewell items are available to purchase by our Sourcewell members. To come up with a fair market price Gradall will produce a list price based on the items cost + margin which may include any engineering time needed to produce this special option.	*
61	Identify any element of the total cost of acquisition that is NOT included in the pricing submitted with your response. This includes all additional charges associated with a purchase that are not directly identified as freight or shipping charges. For example, list costs for items like pre-delivery inspection, installation, set up, mandatory training, or initial inspection. Identify any parties that impose such costs and their relationship to the Proposer.	Pre-Delivery inspection, training, freight & dealer labor is not included in the Sourcewell contract and are not subject to the fee or quarterly reporting.	*
62	If freight, delivery, or shipping is an additional cost to the Sourcewell participating entity, describe in detail the complete freight, shipping, and delivery program.	Freight can be quoted and will be added to the invoice at time of shipment. Also freight from Dealer to customer will be added. Dealer or customer also has the option to come in and pick up their machine or set up their own transport when unit is ready to ship.	*
63	Specifically describe freight, shipping, and delivery terms or programs available for Alaska, Hawaii, Canada, or any offshore delivery.	Just as we offer for the continental U.S., all shipping / freight charges are based on actual costs and any additional costs associated to the dealers to transport the units to the customer.	*
64	Describe any unique distribution and/or delivery methods or options offered in your proposal.	There are not any other than what we have already described. Should we receive any unique member requests, we would certainly take them into consideration and they are open for discussion on a case-by-case basis.	*

Table 12: Pricing Offered

Line Item	The Pricing Offered in this Proposal is: *	Comments
65	c. better than the Proposer typically offers to GPOs, cooperative procurement organizations, or state purchasing departments.	

Table 13: Audit and Administrative Fee

Line Item	Question	Response *	
66	Specifically describe any self-audit process or program that you plan to employ to verify compliance with your proposed Contract with Sourcewell. This process includes ensuring that Sourcewell participating entities obtain the proper pricing, that the Vendor reports all sales under the Contract each quarter, and that the Vendor remits the proper administrative fee to Sourcewell. Provide sufficient detail to support your ability to report quarterly sales to Sourcewell as described in the Contract template.	All quotes & sales are reviewed by the contract administrator to assure pricing standards & Sourcewell Contract compliance.	*
67	If you are awarded a contract, provide a few examples of internal metrics that will be tracked to measure whether you are having success with the contract.	We use various ways to track success of the Sourcewell sales. We maintain a spreadsheet showing all sales quarterly from year to year and show our Sourcewell sales on our yearly order board. We can also track in our quoting system.	*
68	Identify a proposed administrative fee that you will pay to Sourcewell for facilitating, managing, and promoting the Sourcewell Contract in the event that you are awarded a Contract. This fee is typically calculated as a percentage of Vendor's sales under the Contract or as a per-unit fee; it is not a line-item addition to the Member's cost of goods. (See the RFP and template Contract for additional details.)	We would propose to continue the 1% Sourcewell fee that is currently in place with Sourcewell. The 1% fee would exclude freight, Pre-Delivery Inspection, any customer supplied labor or any "non" Sourcewell items and training. The 1% Sourcewell fee is based on net dollar amount of customer quote and is after any trade in allowance for machines being traded in.	*

4. To the best of its knowledge and belief, and except as otherwise disclosed in the Proposal, there are no relevant facts or circumstances which could give rise to an organizational conflict of interest.
