A. EQUIPMENT, PRODUCTS, OR SERVICES. Supplier will provide the Equipment, Products, or Services as stated in its Proposal submitted under the Solicitation Number listed above. Supplier's Equipment, Products, or Services Proposal (Proposal) is attached and incorporated into this Contract.

All Equipment and Products provided under this Contract must be new and the current model. Upon Contract execution and throughout the Contract term, Supplier must provide to Sourcewell a current means to validate or authenticate Supplier's authorized dealers, distributors, or resellers relative to the Equipment, Products, and Services offered under this Contract, which will be incorporated into this Contract by reference. "Supplier", when used in connection with a purchase order, shall refer to the Dealer responsible for activities related to fulfilling the purchase order including, but not limited to, specifying, quoting, ordering, delivering, installing, invoicing and collection in accordance with the terms of this Contract. In certain situations, or in locations where no Dealer is available, Supplier may act as the Vendor under this Agreement.

3. PRICING

All Equipment, Products, or Services under this Contract will be priced at or below the price stated in Supplier's Proposal.

Unless otherwise provided herein, when providing pricing quotes to Participating Entities, all pricing quoted must reflect a Participating Entity's total cost of acquisition. This means that the quoted cost is for delivered Equipment, Products, and Services that are operational for their intended purpose, and includes all costs to the Participating Entity's requested delivery location.

Regardless of the payment method chosen by the Participating Entity, the total cost associated with any purchase option of the Equipment, Products, or Services must always be disclosed in the pricing quote to the applicable Participating Entity at the time of purchase, excluding applicable sales or use taxes and/or surcharges, which will be captured on the applicable invoice.

A. SHIPPING AND SHIPPING COSTS. All delivered Equipment and Products must be properly packaged. Damaged Equipment and Products may be rejected. If the damage is not readily apparent at the time of delivery, Supplier must permit the Equipment and Products to be returned within a reasonable time at no cost to Sourcewell or its Participating Entities. Participating Entities reserve the right to inspect the Equipment and Products at a reasonable time after delivery where circumstances or conditions prevent effective inspection of the Equipment and Products at the time of delivery. In the event of the delivery of nonconforming Equipment and Products, the Participating Entity will notify the Supplier as soon as possible and the Supplier will replace nonconforming Equipment and Products with conforming Equipment and Products that are acceptable to the Participating Entity.

Supplier must arrange for and pay for the return shipment on Equipment and Products that arrive in a defective or inoperable condition.

Sourcewell may declare the Supplier in breach of this Contract if the Supplier intentionally delivers substandard or inferior Equipment or Products.

from the Hot List at any time through a Sourcewell Price and Product Change Form as defined in Article 4 below.

Hot List program and pricing may also be used to discount and liquidate close-out and discontinued Equipment and Products as long as those close-out and discontinued items are clearly identified as such. Current ordering process and administrative fees apply. Hot List Pricing must be published and made available to all Participating Entities.

4. PRODUCT AND PRICING CHANGE REQUESTS

Supplier may request Equipment, Product, or Service changes, additions, or deletions at any time. All requests must be made in writing by submitting a signed Sourcewell Price and Product Change Request Form to the assigned Sourcewell Supplier Development Administrator. To access the contracted Equipment, Products, or Services under this Contract, a Participating Entity must clearly indicate to Supplier that it intends to access this Contract; however, order flow and procedure will be developed jointly between Sourcewell and Supplier. Typically, a Participating Entity will issue an order directly to Supplier or its authorized subsidiary, distributor, dealer, or reseller. If a Participating Entity issues a purchase order, it may use its own forms, but the purchase order should clearly note the applicable Sourcewell contract number. All Participating Entity orders under this Contract must be issued prior to expiration or cancellation of this Contract; however, Supplier performance, Participating Entity payment obligations, and any applicable warranty periods or other Supplier or Participating Entity obligations may extend beyond the term of this Contract.

Supplier's acceptable forms of payment are included in its attached Proposal. Participating Entities will be solely responsible for payment and Sourcewell will have no liability for any unpaid invoice of any Participating Entity.

B. ADDITIONAL TERMS AND CONDITIONS/PARTICIPATING ADDENDUM. Additional terms and conditions to a purchase order, or other required transaction documentation, may be negotiated between a Participating Entity and Supplier, such as job or industry-specific requirements, legal requirements (e.g., affirmative action or immigration status requirements), or specific local policy requirements. Some Participating Entities may require the use of a Participating Addendum, the terms of which will be negotiated directly between the Participating Entity and the Supplier or its authorized dealers, distributors, or resellers, as applicable. Any negotiated additional terms and conditions must never be less favorable to the Participating Entity than what is contained in this Contract.

C. SPECIALIZED SERVICE REQUIREMENTS. In the event that the Participating Entity requires service or specialized performance requirements not addressed in this Contract (such as e-commerce specifications, specialized delivery requirements, or other specifications and requirements), the Participating Entity and the Supplier may enter into a separate, standalone

The Supplier will submit payment to Sourcwell for the percentage of administrative fee stated in the Proposal multiplied by the total sales of all Equipment and Products purchased by Participating Entities under this Contract during each calendar quarter. Payments should note the Supplier's name and Sourcwell-assigned contract number in the memo; and must be mailed to the address above "Attn: Accounts Receivable" or remitted electronically to Sourcwell's banking institution per Sourcwell's Finance department instructions. UNITED STATES:

CANADA:

ORDERS - PROCEDURE; CANCELLATION AND CHANGES

A. Procedure

Participating shall initiate orders by sending to Dealer a written or electronically transmitted (EDI) purchase order ("Order") containing the minimum required information listed below:

- Participating's Order reference number.
- Designation of Products (e.g., style number) and/or services covered by the Order.
- Designation of surface materials.
- Quantity ordered.
- Price.
- Requested delivery date.
- "Ship to" address including contact name, dock information, etc.
- Billing address for invoices.
- Any special shipping or handling requirements.

Dealer and Steelcase will use their best efforts to comply with delivery dates requested by Participating on Orders. For Large Orders, Steelcase recommends that Participating provide as much notice as possible to Dealer in advance of the Order to reserve manufacturing capacity. Dealer shall acknowledge receipt of each Order to Participating, noting the acknowledged Steelcase ship from factory and scheduled local delivery dates.

B. Cancellation and Changes

Participating shall have the right to change or cancel any Order by delivering written notice to Dealer. Except as otherwise provided herein, any such change or cancellation shall be without charge prior to commencement of production of such Order. If production has begun (including the ordering of parts and materials), a charge may be applied up to the full invoice amount of the Order.

DELIVERY AND INSTALLATION PROVISIONS

Whenever delivery and/or installation is performed by Dealer, the following general provisions shall apply:

A. Labor Charges

Installation will be performed by an authorized Steelcase dealer and is based on delivery during normal working hours within the authorized Steelcase dealer's standard service area, utilizing non-union labor. Additional labor charges may result from the following, and shall be confirmed to Participating Entities in advance:

- Work performed outside of the normal working hours at Participating Entities' request.
- Delivery and Installation outside the standard service area, which is typically outside of a 25-mile radius from a servicing dealer.
- Use of union labor due to trade regulations.
- Installation of, or work in connection with, furniture lighting, HVAC, cabling, wiring, prewired panels, power hook-up and various electrical work.
- Work disruptions due to other trades, unions or subcontractors.

B. Special Markings, Packaging or Handling

If special markings, packaging or handling is requested by Participating Entities, it may be subject to additional charges.

C. Condition of Job Site

The job site shall be clean and free of debris prior to installation. Adequate facilities for offloading, staging, moving, and handling of Products shall be provided without charge by Participating Entities.

D. Job Site Service

Electric current, heat, hoisting and/or elevator service, and containers for the disposal of packing materials will be furnished without charge by Participating Entities.

E. Storage

In the event that physical delivery and/or installation are delayed at Participating Entities's Designated Location due to causes outside the control of Dealer or Steelcase, the Products will be stored at Participating Entities's expense. All charges related to the delay (e.g., storage costs, labor for loading and unloading) will be confirmed to Participating Entities by Dealer at the time of the delay. Invoices for Products placed into storage will be sent by Dealer to Participating Entities to be paid as if the Products had been delivered as scheduled.

After the Products arrive at the designated site, safe and adequate storage space will be provided by Participating Entities if immediate installation cannot be accomplished. If the space provided is inadequate, requiring excessive sorting or movement, a charge may be applied based upon agreement between Participating Entities and Dealer.

F. Assembly

Dealer's ability to assemble Products shipped knocked down or to attach, affix, or bolt in place movable Products is sometimes dependent on union jurisdictional agreements. If trade regulations in force at the time of installation require the use of union tradesmen or tradesmen other than Dealer's own installation personnel at the site, all resulting additional charges (e.g., the differential between union's or other tradesmen's hourly rate and the non-union hourly rate of Dealer's personnel) will be paid by Participating Entities.

G. Damage

Pursuant to the applicable Incoterm, any loss or damage to the Products by weather, other trades (such as painting or plastering), fire, or other elements shall be the responsibility of Participating Entities after the Products are delivered by Dealer; and Participating Entities agrees to hold Dealer harmless from loss for such reason. Notwithstanding the foregoing, however, any loss or damage to the Products caused by Dealer, its employees or subcontractors during installation shall be the responsibility of Dealer.

H. Insurance

During the term of this Agreement, Dealer and Steelcase will each maintain all applicable insurance coverage consistent with local insurance requirements and local practices, adequate to meet their liabilities under the Agreement; and Dealer's insurance shall be primary. Insurance certificates are available from Dealer or Steelcase upon request. Fire, tornado, flood, earthquake, windstorm, and other all risks insurance coverage and other applicable insurance at the site will be the responsibility of Participating Entities (including any deductibles thereunder).

Line Item	Question	Response *
10	Provide a brief history of your company, including your company's core values, business philosophy, and industry longevity related to the requested equipment, products or services.	Established in 1912, Steelcase is a global design and thought leader in the world of work. We help people do their best work by creating places that work better. Along with more than 35 creative and technology partner brands, we design and manufacture innovative furnishings and solutions for the many places where work happens — including learning, health and work from home. Our solutions come to life through our community of expert Steelcase dealers in approximately 770 locations, as well as our online Steelcase store and other retail partners. Founded in Grand Rapids, Michigan, Steelcase is a publicly traded company with fiscal year 2023 revenue of \$3.2 billion. With our 12,000 global employees and dealer community, we come together for people and the planet — using our business to help the world work better.

11	What are your company's expectations in the event of an award?	In the event of an award, Sourcewell and Steelcase would work closely together to execute an aggressive go-to-market strategy for the new contract. Steelcase has been a Sourcewell supplier for over 16 years, and we see significant potential to grow our business together in both the US and Canada. Our vast Dealer Network has years of expertise in executing the Sourcewell contract and developing new customers. In addition, regularly scheduled webinars would be put in place on an ongoing basis to continue to train and market our Sourcewell contract to the Steelcase field sales teams and Steelcase dealer sales organization. We also expect to establish and maintain regular communication with Sourcewell for feedback and review on mutual contract progress and performance. The continuing goal is to provide superior total solutions and value to Sourcewell and its network of members, promoting membership while increasing contract utilization and growth.	*
12	Demonstrate your financial strength and stability with meaningful data. This could include such items as financial statements, SEC filings, credit and bond ratings, letters of credit, and detailed reference letters. Upload supporting documents (as applicable) in the document upload section of your response.	Steelcase has led the office furniture industry in sales since 1974. We are a financially strong and fiscally responsible company, with a FY23 revenue of \$3.2 billion. Our scale allows us to bring insights and resources to local markets beyond anything local competitors can offer. For an in-depth look at our financials, please see the Financial Strength & Stability attachment.	*
13	What is your US market share for the solutions that you are proposing?	Based on information available to us and our best efforts to estimate market share, we believe our market share is approximately a low double-digit percentage in the Americas, which is the leading market share in our industry. As a public company, Steelcase does not specifically call out market share data in our annual report or related filings. Further, we only delineate volume by Americas, EMEA and APAC categories in our public filings. Steelcase's total revenues from our latest fiscal year (FY23) is \$3.2 billion. For additional reference, our largest customer accounted for approximately 2% of our consolidated revenue in FY23, and our five largest customers collectively accounted for approximately 6% of our consolidated revenue. However, these percentages do not include revenue from various US federal government agencies. In FY23, our sales to US government agencies represented approximately 3% of our consolidated revenue. We do not believe our business is dependent on any single or small number of end-use customers, the loss of which would have a material adverse effect on our business. No single independent Steelcase dealer accounted for more than 4% of our consolidated revenue in FY23. The five largest independent Steelcase dealers collectively accounted for approximately 14% of our consolidated revenue in FY23. We do not believe our business is dependent on any single independent dealer, the loss of which would have sustained material adverse effect on our business.	*
14	What is your Canadian market share for the solutions that you are proposing?	Please refer to our previous response in T2.13.	*
15	Has your business ever petitioned for bankruptcy protection? If so, explain in detail.	No, Steelcase has never petitioned for bankruptcy.	*
16	How is your organization best described: is it a manufacturer, a distributor/dealer/reseller, or a service provider? Answer whichever question (either a) or b) just below) best applies to your organization. a) If your company is best described as a distributor/dealer/reseller (or similar entity), provide your written authorization to act as a distributor/dealer/reseller for the manufacturer of the products proposed in this RFP. If applicable, is your dealer network independent or company owned? b) If your company is best described as a manufacturer or service provider, describe your relationship with your sales and service force and with your dealer network in delivering the products and services proposed in this RFP. Are these individuals your employees, or the employees of a third party?	B. Steelcase is a manufacturer. We go to market through our extensive network of authorized dealers. Steelcase has the largest, most experienced dealer network in the industry with 770 dealer locations worldwide. Our dealers are committed to building long-term customer relationships, and serve as their customers' local, first-point-of-contact for all product, service and warranty requests. These dealerships are independently owned organizations who operate under a set of guiding principles and are upheld to rigorous service standards as set by Steelcase. As business owners themselves, they are committed to providing Sourcewell members with exemplary service no matter their location globally. Steelcase dealers offer local knowledge, skilled labor, workplace installation, regional asset management and other services that may include providing audio-visual technology, floor coverings, ceilings and more to satisfy customer projects and high expectations. For more information about our network of dealers, please see Additional Document T2.16 for our worldwide dealer locations.	*

17	<p>If applicable, provide a detailed explanation outlining the licenses and certifications that are both required to be held, and actually held, by your organization (including third parties and subcontractors that you use) in pursuit of the business contemplated by this RFP.</p>	<p>Steelcase is subject to a variety of federal, state, local and foreign laws and regulations requiring registrations, licenses and certifications in pursuit of doing commerce and business in addition to many industry practices. We believe our operations are in substantial compliance with all.</p> <p>At Steelcase, we don't need certifications to do the right thing, but we believe in transparency and accountability—and our customers do, too. We certify our products and evaluate our operations through third parties because it's an important validation for our customers, shows our work and progress and builds trust. Our sustainability certifications include:</p> <ul style="list-style-type: none"> • BIFMA LEVEL® - Steelcase leads the market in BIFMA LEVEL® certifications with 160 LEVEL® 3 certified products and 292 BIFMA LEVEL® certified products overall. • EcoVadis - Steelcase's EcoVadis Gold rating places us in the top 2% of all companies in the global furniture manufacturing industry. 2023 is the third consecutive year we were awarded a Gold rating for our industry-leading commitments to the wellbeing of people and the planet. • Science-based Targets Initiative (SBTi) – We are carbon neutral and we've set science-based targets to reduce absolute emissions by 50% in our own facilities by 2030. Since our base year of FY20, we have already decreased our absolute emissions by 26%. • CarbonNeutral product Certification - The first certified CarbonNeutral® product in our portfolio was the Steelcase Series® 1 chair, which is available in the Americas, EMEA and APAC. Now we've widened our CarbonNeutral® product certification option to our best work chairs. • Indoor Air Quality (IAQ) - Because this is a baseline requirement for many stakeholders, we hold the expectation that 100% of products going through product development must conform to these stringent third-party indoor air emissions standards. • Declare – With nearly two decades of understanding the human and environmental impacts of the materials we put into our products, pursuing Declare allows us to have our previous and future work verified by a trusted, recognized third party. Because the level of disclosure for a Declare label is so stringent, we maintain a great deal of transparency in our upstream materials supply chain. • Forest Stewardship Council + Program for the Endorsement of Forest Certification (FSC & PEFC) - On average, 80% of the wood in EMEA Steelcase branded products is PEFC certified. For selected products, FSC certified wood can be utilized upon request. • ISO 14001 / ISO 14006 - Out of Steelcase's 20 facilities, 85% are ISO 14001 registered around the world with three additional plants in North America working to achieve ISO registration. As a continuation of ISO 14001 and the environmental management system (EMS), being registered as ISO 14006:2020 confirms that Steelcase has established, implemented, documented, maintained and continually improves the EcoDesign of our products. • The Carbon Disclosure Project (CDP) - We are committed to transparency, integrity and the environment, which is why we've been reporting to CDP since 2011 on our carbon emissions, emissions reduction goals and initiatives, climate-related risk management and governance. In fact, we have received the highest CDP score in our industry and continue to focus on progress and continue to pursue opportunities to improve our disclosure and commitments. • Environmental Product Declarations (EPDs) - Because we know that these types of third-party verified documents are increasingly important for product choice and LEED credits, we are actively working to increase the amount of these documents daily, across a mix of product types and regions. EPDs can be accessed on Origin.build.com.
18	<p>Provide all "Suspension or Debarment" information that has applied to your organization during the past ten years.</p>	<p>As a 100+ year old industry-leading company with global operations, Steelcase Inc. naturally gets involved in periodic legal proceedings including contract disputes and other claims arising from time to time in the normal course of business. Steelcase business practices have been sound throughout our existence, and we believe there is no past, current or contemplated future situation that would have any material adverse effect on Steelcase's integrity, financial stability or reputation, or that should cause our customers concern regarding Steelcase's overall business practices or continuing ability to serve them.</p>

26	Sales force.	<p>Steelcase's sales force is a unified effort between Steelcase sales—both at the corporate and local levels—and our Authorized Dealer Network. While each Steelcase dealer maintains its own sales force, the Steelcase sales representatives complement the market and work closely together to bring our customers quality solutions and unparalleled service.</p> <p>Steelcase Sales Network Many Steelcase sales and support staff have a 'home base' in their local region called a WorkLife Center. The Steelcase WorkLife Centers are designed to illustrate how space can amplify the performance of individuals, teams and enterprises, and feature the latest and greatest products in a range of applications. There are nine WorkLife Centers in the US and Canada and are located in:</p> <ul style="list-style-type: none"> • Atlanta, Georgia • Boston, Massachusetts • Chicago, Illinois • Dallas, Texas • Los Angeles, California • New York, New York • San Francisco, California • Toronto, Canada • Washington, D.C. <p>Additionally, our Global Business Center Headquarters is located in Grand Rapids, Michigan and has over 2,200 employees whose roles cross a variety of functions, including providing support to the sales field and dealers. Our Business Center in Monterrey, Mexico will also have teams that support Sourcewell Members.</p> <p>Leading our sales efforts through a newly awarded contract would be Nate Kolakowski. He will serve as the primary point of contact for Sourcewell and accountability for Steelcase. Nate has responsibility for the successful implementation and fulfillment of any resulting Sourcewell contract, if awarded. He reports to Jeff Fredrickson, the Director for Steelcase Government Solutions. Jeff works closely with Nate to further enhance and promote Sourcewell and provide service to Sourcewell Members. This continuity has helped Steelcase maintain an emphasis on the contract requirements and bring management focus to the contract with Sourcewell.</p> <p>Selling through our Dealer Network Through approximately 380+ Steelcase dealer sales locations in the U.S. and Canada, each Steelcase dealer maintains its own sales force who work closely with Steelcase sales representatives throughout the selling process. The attention of our Steelcase sales force is fully focused on selling the entire Steelcase Inc. portfolio and Partner products being offered in this Sourcewell RFP proposal response and are not responsible for selling other products that are not part of this offering. Both Steelcase and our dealers have specific sales representatives assigned to Sourcewell Member sectors as well as specialized workplace consultants in the higher education and healthcare segments.</p> <p>Please see Additional Document T6.26 for more information, including the Steelcase team supporting Sourcewell.</p>

27	Dealer network or other distribution methods.	<p>Steelcase goes to market through our industry-leading dealer distribution network. Our dealers are a worldwide community of experts who understand their local market and serve as a strategic partner for your workplace journey. Dealers perform installation, warranty work and other valuable services, such as navigating local guidelines, regulations and resources.</p> <p>The relationship we have with our dealers is extremely unique—instead of signed agreements we have trusted long-term relationships with our dealers and treat them as business partners. Steelcase thoroughly assesses each candidate, including the principal owner(s) of the business and proposed management team, before being appointed as an Authorized Steelcase Dealer.</p> <p>We hold our dealers to a high level of quality and exceptional performance and will utilize all our resources to ensure customer needs are met. Steelcase management conducts annual formal sessions with dealer management to identify any training or resource needs. Steelcase also awards dealers as Platinum Partners when they stand out for exceptional service and extraordinary results through strongly engaging with Steelcase, customers and their local community.</p> <p>Your local Steelcase dealer is connected to a network in 250 cities across North America, and more than 770 dealer locations globally. The Steelcase Authorized Dealer Network is comprised of 380+ dealer locations throughout North America and Canada. Our dealers provide the local point of contact and significant scalability to execute large, complex projects consistently within budget and on-time. Their teams offer local knowledge, skilled labor, workplace installation, regional asset management and other services that may include providing audio-visual technology, floor coverings, ceilings and more to satisfy customer projects and high expectations.</p> <p>Steelcase is responsible for providing insights-based, high quality and innovative products to our dealers to meet the evolving needs of our customers and Sourcewell Members. Each dealership utilizes its own sales and services force – supported closely by Steelcase – to provide Members with the specific services they require. As experienced business owners, dealers recognize that they can only be successful by fully meeting or exceeding their customers' needs. To that end, they are committed to providing Sourcewell Members exemplary service in their local marketplace.</p> <p>Our dealers also work on a common business platform called Hedberg Business Management System, wholly owned by a subsidiary of Steelcase, to support the entire sales, planning, order management, receiving, warehousing and financial management life cycle. Through Hedberg, dealers can:</p> <ul style="list-style-type: none"> • Create a direct link between the designers' drawing and the corresponding quote. • Automate and manage all discount levels supplied to Sourcewell. • Color code sections of the order to efficiently manage the staging of a project while maintaining a tight project schedule. • Convert the quote into an electronic order that connects directly to the manufacturing process. • Manage all deficiency reorders and track metrics to measure performance. <p>The Hedberg system allows dealers to manage product lead times by individual product electronically and proactively. The lead time for every item is provided—based on the actual order at the manufacturing facility—and can be run many times throughout the quote and post-order stages. This ensures we properly align any reservation dates and logistical requirements regarding the quote, such as overall cubage and delivery groupings.</p> <p>The Hedberg platform would require a single enablement for each Member. Steelcase is responsible for the software development, hosting, implementation management and all technical aspects of site setup, configuration, integration and testing. Dealers are responsible for local content definition and management of catalogs plus additional content/customization in support of each Member.</p> <p>Please see Additional Document T6.27 to review more information about our dealers and their offered services.</p>

28	Service force.	<p>Over 380 Steelcase dealer locations—with dealer sales, sales management, installers and support staff located throughout North America—serve as our customers' local, first-point-of-contact for all product, service and warranty questions and requests. As experienced business owners, dealers recognize that they can only be successful by fully meeting or exceeding their customers' needs. A significant percentage of the products sold by Steelcase dealers are the Steelcase and partner products being offered in this Sourcewell RFP proposal response. Most of our Steelcase dealer sales force attention focuses on selling the entire Steelcase Inc. portfolio and partner products we are proposing. They are committed to providing their customers exemplary service and to building long-term relationships with them.</p> <p>To further ensure that dealer's customers have a positive experience:</p> <ul style="list-style-type: none"> • In-house experts receive specialized training from Steelcase workplace consultants, designers, order entry, project management and installers. For example, there are approximately 1,700 dealer installers and, on average, Steelcase provides additional training to more than 400 installers a year. If a Sourcewell Member did have their own installers, they could have access to Steelcase training, however, every third party must be sponsored by a dealer or Steelcase. • Steelcase also provides easy online access to our product installation instructions 24/7 here: www.steelcase.com/installers/ • Documented project processes are in place to address every step from solution development to final installation. <p>To support our dealers in their customer service efforts, each dealer has dedicated Customer Service Representatives in the Order Fulfillment Team at Steelcase. Additionally, dealers and Sourcewell Members have access to a variety of Steelcase customer service experts by calling 1-888-STEELCASE. This toll-free number serves as the single point of contact for all dealer questions and to reach experts in billing services, sales services, service parts and problems, complaints and warranty issues.</p> <p>Ensuring A Smooth Process Steelcase dealer customer service representatives use our Hedberg Data Systems, a fully owned subsidiary of Steelcase, which is tightly integrated with Steelcase's business systems. Hedberg ensures a streamlined order process and virtually eliminates order errors. Through EDI transactions Hedberg provides a constant, audited flow of your information. With Hedberg, Sourcewell Members can:</p> <ul style="list-style-type: none"> • Receive electronic quotes, orders, invoices and reports. • Assign required delivery dates. • Add special delivery requirements. • Include tagging, etc. • Send the order to Steelcase via EDI. <p>Steelcase receives EDI orders Monday through Friday from 7:45am until 11:45pm and Saturday at 6:45pm. Once Steelcase receives the order in SAP, your representative will review the order to ensure your needs have been met. Additionally, your dealer will receive an acknowledgement via EDI at the same time. Real time status of the order can be viewed via Web Tracks.</p>
29	Describe the ordering process. If orders will be handled by distributors, dealers or others, explain the respective roles of the Proposer and others.	<p>Placing an order When Sourcewell Members are ready to place an order for Steelcase products, their Steelcase participating dealer will accept and enter the order as the seller using their Hedberg Business Management System. Our proprietary software technology, Hedberg, greatly increases accuracy and saves our customers time and money. Hedberg fully integrates with our dealer partner's system and supports the entire sales, planning, order management, receiving, warehousing and financial management life cycle. Partnered with Steelcase's business systems through EDI transactions that provide a constant, audited flow of your information, Hedberg provides you with electronic quotes, orders, invoices, reports and more.</p> <p>Members shall initiate orders by sending to Steelcase Participating Dealer(s) a written or EDI purchase order containing the minimum required information listed below:</p> <ul style="list-style-type: none"> • Member's order reference number • Sourcewell Steelcase contract number • Sourcewell Member number • Designation of products (e.g., style number) and/or services covered by the order • Designation of surface materials • Order Q\quantity • Price • Requested delivery date • Shipping address including contact name, dock information, etc. • Billing address for invoices • Special shipping or handling requirements • For Worktool products, specify "ship complete" unless split shipments are acceptable

		<p>Steelcase participating dealers and Steelcase will use their best efforts to comply with delivery dates requested by Member on orders. For large orders, Steelcase recommends that Members provide as much notice as possible to Steelcase participating dealer in advance of the order to reserve manufacturing capacity. Steelcase participating dealer shall acknowledge receipt of each order to Member, noting the acknowledged Steelcase ship and scheduled local delivery dates.</p> <p>Changes and Cancellations Sourcewell Members can cancel or change their order with written notice to their participating Steelcase dealer. Steelcase and our dealers will work to minimize any charges to the Member because of a request for change or cancellation and will use commercially reasonable efforts to accommodate their requests. Due to any changes or cancellations, Steelcase cannot guarantee production schedules will be available to match requested changes.</p> <p>No charges shall exceed the invoice amount of the changed/cancelled portion of the order plus any Steelcase participating dealer-related costs (e.g., design), if applicable. In no event shall the change/cancellation charge(s) include any penalties to the Member. Additional charges and schedule impact will vary depending on the complexity of the change and schedule impact. Applicable charges for any changes or cancellations includes:</p> <ul style="list-style-type: none"> • If production has begun (including the ordering of parts and materials), a charge may be applied up to the full invoice amount of the order. In determining applicable charges for change or cancellation, each request shall be reviewed on an individual basis taking into consideration the complexity and the scheduled ship date. • Steelcase shall identify any applicable charges at the time the change/cancellation request is received by Steelcase. The Member shall, at that time, determine if it wishes to proceed with such change/cancellation. • Special Products, Products using Customer's Own Material ("COM"), Partner Products, Quick Ship orders, Turnstone and service parts, Large Orders and imported Coalesse are not subject to change or cancellation without charge once the order has been received by Steelcase. • Changes and cancellations of Architectural Solutions products may be made but may result in additional charges and/or schedule adjustments after order has been placed with Steelcase or after shop drawings have been approved. <p>All questions relating to change order or cancellation must be made with your Steelcase participating dealer who will contact the project manager and the Steelcase on your order.</p> <p>Reporting and Contract Compliance To verify contract compliance and reporting to our Sourcewell contract, Steelcase uses a trusted participating facilities designation, loading and recognition procedure. Our formalized process reconciles our sales with the Sourcewell Membership list. Orders by Members that are processed with our dealers have the Sourcewell contract number noted in the order, which ensure easy dealer access to Sourcewell quotes and correct contract pricing.</p> <p>The Membership list provided by Sourcewell, along our automated reporting system, provides the foundation of how we designate, load and recognize Sourcewell sales. We download the Membership roster from Sourcewell's website and convert this into a usable file that can link to our internal reporting system, quotes and unique site IDs each Member has.</p> <p>Our internal reporting team uses the converted file to match Members to the Sourcewell master quote and any quotes that are linked to the Sourcewell agreement. The Sourcewell master quote and linked quotes are unique numbers that provide accuracy to insure Sourcewell sales are recognized by Steelcase. So, any Member electing to purchase through the Sourcewell agreement receives pricing from an authorized participating Steelcase dealer who must use Sourcewell quote numbers to complete Member transactions.</p> <p>In addition, our reporting system deploys a matching algorithm which automatically matches member sites (every member as a unique site ID) to Sourcewell sales through our authorized participating dealers. If we do find that an error and eligible sales were not reported, we will reconcile and report those eligible sales in the next reporting cycle and pay any associated fees, consistent with our agreement and our values and business practices.</p>
30	Describe in detail the process and procedure of your customer service program, if applicable. Include your response-time capabilities and commitments, as well as any incentives that help your providers meet your stated service goals or promises.	Between your servicing Steelcase dealer(s) and Steelcase Account team, Sourcewell Members will have access to a wide breadth of teams and resources to meet your needs—all of whom will apply a high level of customer service. Response times vary depending on scope of issue, yet Steelcase and your dealer will work quickly and efficiently towards a prompt resolution. Our customer service teams and processes include:

Steelcase Order Fulfillment Team (OFT). Steelcase dealers have dedicated customer service representative teams based at our Business Center Headquarters in Grand Rapids, Michigan. The OFT links Steelcase and dealers to provide Members timely order and delivery information, keep Members up to date on project status and provide value-added services to make sure project requirements are met.

Customer Service Availability. Most Steelcase teams are available from 8am-5pm Monday through Friday. Nate Kolakowski, the Sourcewell Account Manager can delegate issues/tasks to Steelcase or dealer team Members to ensure your needs are met quickly and efficiently, even outside of normal business hours. Once an order has been processed, Nate will follow up with Steelcase to ensure purchase orders have been received and there are no questions or delays. He will update any status reports, monitor lead times and ship dates, and identify any potential problems with deliveries.

Additional responsibilities include:

- Prepare quotations, provide information to set up new vendors and place orders and ensure accuracy—all in our operating system, Hedberg.
- Track order, contact vendor as necessary to obtain ship dates.
- Verify order acknowledgements from vendors.
- Prepare status reports.
- Schedule delivery and installation with our operations team.
- Coordinate truck schedule with the manufacturer.
- Resolve processing of Completion Report orders in a timely fashion.

Product Performance Resolution. For order, delivery and installation issue resolution, our dealers use our Lean After Ship Experience Rationalization (LASER) system to submit post-delivery "trouble tickets." A dedicated Steelcase team monitors the LASER system to bring swift resolution to damage claims and other post-delivery issues. After resolution, we work to minimize future issues through corrective action.

Issue Escalation. All significant issues are directed to the manufacturing location or distribution center from where the issue originated. The in-plant teams work to conduct investigations and drive root cause corrective actions to eliminate issues from occurring again in the future. Plants produce monthly reports on their top contributing complaints and the corrective action project plans to address the issues.

Customer Service Resolution. For concerns with service and our performance, we take a streamlined approach that ensures transparency as the process moves towards resolution. Our dealers begin a four-step escalation plan that supports our collective resolution process. The issue and resolution process are tracked for final resolution and continuous improvement. The escalation steps include:

- Step 1: Dealers are the first point of contact for any issues and are responsible for escalation to Steelcase.
- Step 2: Dealers will next engage your Steelcase representative if a resolution is not found in the first step.
- Step 3: If your Steelcase representative is unable to find a resolution, the issue is then escalated to the Regional Steelcase Sales Manager to solve your concerns effectively.
- Step 4: If necessary, Executive Steelcase representatives would become involved if the previous steps do not provide resolution. This action is not anticipated.

Warranty Claims. If you receive a Steelcase product that is freight damaged, malfunctions or requires warranty service, Steelcase has a plan in place to make sure issues are resolved quickly and to your satisfaction. To place a service request, first call the selling participating Steelcase dealer. The Member servicing dealer will evaluate the defect and the product's manufacturing date to determine warranty coverage under Steelcase Warranty Policy. The issue will be explained in detail to the OFT representative by the servicing dealer and they will submit a request for a replacement product and/or part, if necessary. Steelcase will provide the servicing dealer with the product or replacement part, and the servicing dealer will deliver and install it swiftly and at no charge to the Member.

Ongoing Quality Assurance. To closely monitor our quality initiatives, Steelcase leverages LEAN manufacturing principles to improve our operations practices and organizational processes. LEAN allows us to see where we're going and monitor all operating functions to ensure efficiency and increase customer value. Management watches performance indicators regularly to pursue continuous improvement while delivering on our quality promise.

42	Describe any "green" initiatives that relate to your company or to your products or services, and include a list of the certifying agency for each.	<p>At Steelcase, we are dedicated to continuously improving the environmental sustainability performance of our operations, products and services. We are operationally carbon neutral, and we've set targets approved by the Science Based Targets initiative (SBTi) to reduce our greenhouse gas emissions aligned with the most ambitious temperature trajectory of the Paris Climate Accord—keeping global temperature rise to 1.5C above pre-industrial levels. This means we expect to reduce absolute emissions from our operations 50% by 2030, relative to a baseline year of 2019 and cut indirect emissions from business travel and waste generated in operations by 14% over the same period.</p> <p>Since most of our emissions are considered indirect (or scope 3) emissions, we are engaging suppliers representing 80% (by emissions) of transportation and purchase goods activities to set their own science-based targets by 2025. We will also continue to invest in renewable energy equivalent to 100% of our global electricity consumption and providing financial support to projects like reforestation, to maintain carbon neutrality for our direct operations.</p> <p>In addition to our commitment to reduce greenhouse gas emissions, we are making efforts to mitigate water-related challenges like scarcity and pollution. We report our global water consumption in operations, identify opportunities to improve water use efficiency and continue to manage the quality of discharged wastewater. Through a renewed focus on responsible materials management, we are minimizing total waste through scrap reduction and prevention in our manufacturing operations. We are also focusing on eliminating the single-use plastics in packaging by 2030 and to use higher recycled content packaging in the same timeframe. We help connect customers to product end-of-use service providers to find landfill alternatives for old products to promote a more circular economy.</p> <p>At a product level, we have established goals focused on sustainable product design, stressing the importance of addressing embodied carbon, recyclability, recycled content, and transparency and optimization of product chemistry. To showcase product sustainability transparency and help customers make informed choices, Steelcase shares product-specific data in a public database at the following link: https://origin.build/#/</p> <p>Steelcase publishes an annual Impact Report outlining its vision, goals and progress related to environmental, social and governance initiatives globally. Table 9: Warranty

Describe in detail your manufacturer warranty program, including conditions and requirements to qualify, claims procedure, and overall structure. You may upload representative samples of your warranty materials (if applicable) in the document upload section of your response in addition to responding to the questions below.

Line Item	Question	Response *
47	Do your warranties cover all products, parts, and labor?	<p>The Steelcase Limited Lifetime Warranty provides consistent coverage for both parts and labor for Steelcase products.</p> <p>Please see our attached Warranty Information document for more information, including Steelcase warranty and the warranties for our partners.</p>
48	Do your warranties impose usage restrictions or other limitations that adversely affect coverage?	<p>The Steelcase warranty provides rates warranty coverage regardless of shift usage. Steelcase doesn't limit warranty coverage to single shift only—and we offer 24/7 coverage.</p> <p>Please see our attached Warranty Information document for our partner warranties and information regarding usage for their products.</p>
49	Do your warranties cover the expense of technicians' travel time and mileage to perform warranty repairs?	In the Americas, Steelcase and our Dealers do not charge customers for labor or associated expenses. Steelcase reimburses the Dealer for travel and labor expenses. Steelcase will pass along any warranty with respect to Partner Products.
50	Are there any geographic regions of the United States or Canada (as applicable) for which you cannot provide a certified technician to perform warranty repairs? How will Sourcewell participating entities in these regions be provided service for warranty repair?	<p>Certified technicians are available in all regions across the Americas and Canada. If a Sourcewell Member receives a Steelcase product that is freight damaged, malfunctions or requires warranty service, Steelcase has a plan in place. To place a service request:</p> <ol style="list-style-type: none"> 1. Call the servicing Steelcase dealer. 2. The servicing dealer will evaluate the defect and the product's manufacturing date to determine if it's covered under Steelcase Warranty Policy. The dealer will then contact Steelcase and explain the issue to the Order Fulfillment Team representative. 3. The servicing dealer submits a request for replacement product and/or parts to the Order Fulfillment Team representative (service vehicles are typically stocked with common parts such as pneumatic cylinders, controls, lock cylinders, fasteners and hardware so these issues can be handled in one service call). 4. Steelcase will provide the dealer with the product or replacement part. 5. The dealer will deliver and install the new product or part swiftly and at no charge to Sourcewell.
51	Will you cover warranty service for items made by other manufacturers that are part of your proposal, or are these warranties issues typically passed on to the original equipment manufacturer?	No, the Steelcase Warranty does not cover other manufacturers' products. Steelcase shall pass along any warranty it receives with respect to other manufacturers' branded products, including Bolia, FLOS and others.
52	What are your proposed exchange and return programs and policies?	All Steelcase products are manufactured to your specifications and, therefore, are not subject to return. Non-conforming products will be repaired or replaced at no charge to you. A product is considered non-conforming if it is defective or if it fails to comply with information published in the Steelcase Specification Guide or your purchase order. If a product is believed to be non-conforming a notification request must be submitted by the ordering dealership to start the investigation and approval process. Replacement orders for non-conforming products are processed immediately and receive expedited shipping.
53	Describe any service contract options for the items included in your proposal.	<p>Steelcase can offer extended warranty plans providing coverage beyond the standard warranty for the products in our proposal. These extended warranties safeguard against unexpected expenses due to product failures, ensuring peace of mind for Sourcewell members. Extended warranty can differ based on the product category and the duration of the original warranty coverage.</p> <p>For further information about our Limited Lifetime Warranty, please see our attached Warranty Information document.</p>

Table 10: Payment Terms and Financing Options

Line Item	Question	Response *
54	Describe your payment terms and accepted payment methods.	<p>The payment terms in place with our current Sourcewell/Steelcase contract will be extended to any new contract. The current agreement indicates:</p> <p>Invoicing and Terms of Payment. Invoices, inclusive of applicable sales or use taxes and/or surcharges will be issued by Dealer upon delivery of the Products/Services and will be paid within ten (10) days from the date of invoice. For large orders Members will be invoiced 40% at time of order placement, 50% at delivery and the 10% balance upon completion of installation. A service charge of 1 ½% per month (18% per annum) may be added to invoiced unpaid as of the due date. If partial delivery of an order is made, the Member will make payment for products delivered and services provided. Dealer will invoice Member for shortages or replacement upon delivery of those items.</p>

55	Describe any leasing or financing options available for use by educational or governmental entities.	<p>Steelcase Financial Services offers flexible and convenient financial alternatives that let you create an inspiring workplace while conserving capital, preserving bank lines and reducing tax liabilities.</p> <p>Wholly owned by Steelcase Inc., Steelcase Financial Services is the office furniture industry's only captive finance company. That means greater flexibility because our goal is to build long-term, ongoing relationships with our customers and give you the best value possible.</p> <p>Financing offers your business solid options to:</p> <ul style="list-style-type: none"> • Conserve capital • Protect credit lines • Manage your balance sheet • Realize tax benefits • Maximize your purchasing power • Increase flexibility with payment and end-of-term options <p>Steelcase Financial Services offers 100% financing at highly competitive rates with a wide range of options in the United States and Canada. Financing and leasing plans are available for contracts as low as \$5,000 with terms ranging from 24 to 60 months.</p> <p>Capabilities include:</p> <ul style="list-style-type: none"> • One-stop shopping • Fixed-rate financing • Operating leases • Rapid approvals • Easy add-ons <p>Options</p> <p>\$1 Buy-out</p> <ul style="list-style-type: none"> • Depreciation benefits and interest rates are usually tax deductible • Fixed purchase price <p>End-of-term flexibility</p> <ul style="list-style-type: none"> • Purchase product for \$1 <p>10% Purchase Option</p> <ul style="list-style-type: none"> • Lower payment than \$1 Buy-out • Depreciation benefits and interest are usually tax deductible • Provides a fixed purchase price <p>End-of-term flexibility</p> <ul style="list-style-type: none"> • Purchase product for 10% of the original amount financed • Renew the lease • Return product to Steelcase Financial Services <p>Fair Market Value</p> <ul style="list-style-type: none"> • Lowest payment of the three options listed • Payment is usually tax deductible • May qualify for off-balance sheet, operating lease treatment for reporting purposes <p>End-of-term flexibility</p> <ul style="list-style-type: none"> • Purchase product for fair market value • Renew the lease • Return product to Steelcase Financial Services <p>Deposit Financing</p> <p>Finance your dealer order deposit and fold it in to your monthly payment.</p> <p>Tax-Exempt Financing</p> <p>Tax-exempt financing is an economical alternative to traditional methods of acquiring products from the Steelcase brands. State and local governments or political subdivision, whose interest payments are exempt from federal income taxes under Section 103 of the Internal Revenue Code, may qualify for this type of financing.</p> <p>Please see Additional Document T10.55 for more information about our financing and leasing services.</p>
----	--	---

56	Describe any standard transaction documents that you propose to use in connection with an awarded contract (order forms, terms and conditions, service level agreements, etc.). Upload a sample of each (as applicable) in the document upload section of your response.	<p>There are two primary standard transaction documents that are core to our daily business operations. The first document is our standard quotation form that is created by our dealer partners in our proprietary system, Hedberg. This quotation is what is presented to Sourcewell members and includes all relevant product, pricing and discount information. Once accepted by the customer, this document can then be electronically submitted by the dealer to Steelcase for order entry and processing.</p> <p>The second standard transaction document is our customer invoice document. Each of our independently owned authorized dealers have variable processes, systems and transaction steps, which can vary the layout of these transaction documents. Although there will be slight variation from dealer to dealer, our attached sample transaction documents reflect the expected information that will be recorded and confirmed for day-to-day or project transactions.</p> <p>Please see our attached Standard Transaction Documents for our included document examples.</p>
57	Do you accept the P-card procurement and payment process? If so, is there any additional cost to Sourcewell participating entities for using this process?	<p>Steelcase dealers execute orders and process payment made on this contract as participating dealers. While many dealers accommodate and accept procurement cards, those costs have not been factored into our pricing. The Sourcewell Member would work with the selling dealer regarding specific payment methods. Alternative payment terms such as accepting a P-card may be negotiated between Member and Participating Dealer and mutually agreed upon prior to order placement.</p>

Table 11: Pricing and Delivery

Provide detailed pricing information in the questions that follow below. Keep in mind that reasonable price and product adjustments can be made during the term of an awarded Contract as described in the RFP, the template Contract, and the Sourcewell Price and Product Change Request Form.

Line Item	Question	Response *
58	Describe your pricing model (e.g., line-item discounts or product-category discounts). Provide detailed pricing data (including standard or list pricing and the Sourcewell discounted price) on all of the items that you want Sourcewell to consider as part of your RFP response. If applicable, provide a SKU for each item in your proposal. Upload your pricing materials (if applicable) in the document upload section of your response.	<p>Our proposed pricing model is a "catalog discount by product category" where product line discounts are provided as a percentage off list pricing drop ship. The published Product Catalog includes list pricing for all parts and unit numbers for the products lines on the discount schedule, which is submitted as a Price List PL 200 with this proposal. Sourcewell's participating entities' total cost of acquisition is the drop ship product pricing and any services quoted.</p> <p>The proposal pricing submitted is based on our current Steelcase price list, PL 200 which is in effect today. If awarded, we would propose to be on the current price list when announced nationally as it becomes effective. All the proposed product line discounts would remain the same.</p> <p>The discounts shown are based on drop ship delivery to the customer's designated location. Exceptions include Alaska and Hawaii (in the United States) and the Northwest Territories, Nunavut and Yukon (in Canada), where additional freight charges apply and will be quoted upon request. Installation and other services are available from participating dealers per the rates submitted, subject to the terms and conditions in the attached discount schedule.</p> <p>Please refer to the attached pricing zip file for more detailed information about our pricing proposal.</p>
59	Quantify the pricing discount represented by the pricing proposal in this response. For example, if the pricing in your response represents a percentage discount from MSRP or list, state the percentage or percentage range.	<p>As mentioned in T11.58, our proposed product pricing response will be a "discount by product category." To provide Sourcewell and all participating members the best pricing, we have provided product line discounts as a percentage off list drop ship. For the products listed, our overall discount range is 1.25%-63% off our published list price and Service Parts are listed at 35% off. The discount range by product line and services are shown in our pricing proposal found in the attached pricing zip file.</p>

60	Describe any quantity or volume discounts or rebate programs that you offer.	<p>Steelcase product category purchases as defined, may be combined to reach higher tiers and better discounts on individual purchases. The proposed product discounting established by the Sourcewell discount schedule, provided in the attached pricing zip file, is also "ceiling pricing," meaning prices may be reduced with higher discounting to allow for volume considerations and to meet the specific and unique needs of a Sourcewell Member.</p> <p>Please note there are tiers of pricing noted for virtually all product line categories, meaning Sourcewell Members can negotiate better discounting than what is provided in the 3rd tier where appropriate.</p> <p>At no time may the proposed products/services be offered pursuant to this contract at prices above the ceiling price without approval by Sourcewell. Please see our discount schedule for more detailed information on our tiered discounting levels and complete terms and conditions related to this method of volume discounting.</p>	*
61	Propose a method of facilitating "sourced" products or related services, which may be referred to as "open market" items or "nonstandard options". For example, you may supply such items "at cost" or "at cost plus a percentage," or you may supply a quote for each such request.	<p>For facilitating "sourced products or related services" as defined by the RFP document, our method ensures that the Steelcase/Sourcewell contract includes as many Steelcase Inc. and partner product categories as possible. Our simple strategy alleviates the number of times in which a proposed solution includes products that are not listed on the existing Sourcewell contract that has served Sourcewell Members well over the past contracts. If and when, new products or related services become available during the term of the contract, Steelcase will submit a request for approval to add those items per the Sourcewell process and appropriate form(s).</p> <p>Additionally, there may be instances where members may need "Open Market Items" not on the Sourcewell contract. If the Open Market Items further provide a complete comprehensive solution to the Member, it may be quoted and sold along with the contract items/services to complete the PO. The dealer may supply a quote to include such Member request with the Open Market Item listed as such on a separate line item. No admin fee will be paid on Open Market items and Open Market Items will not be included in any reporting. Open Market Items are not to be quoted separately and associated with this contract.</p>	*
62	Identify any element of the total cost of acquisition that is NOT included in the pricing submitted with your response. This includes all additional charges associated with a purchase that are not directly identified as freight or shipping charges. For example, list costs for items like pre-delivery inspection, installation, set up, mandatory training, or initial inspection. Identify any parties that impose such costs and their relationship to the Proposer.	<p>All elements for the total cost of acquisition are identified and reflected in our proposed discounting schedule for products and related services. The structure of our offering is flexible so that our dealers can provide the best value and solutions to meet participating member's individual needs. The discounting structure is set up as a ceiling price on the product only on drop ship basis yet allows participating dealers to facilitate discussions about the scope of services at the best price.</p> <p>Our Steelcase dealers can determine the scope of labor and appropriate services required, providing a complete project with a total acquisition price that allows flexibility for each individual Member's needs and requirements. Our effective method focuses on providing complete solutions to each Sourcewell Member. With millions worth of business being sold through the contract in the past, we have not received any participating entity complaints related to a customer not receiving the value and the total cost expected.</p> <p>Please refer to question T11.58 and the attached pricing zip file for more detailed pricing and cost information.</p>	*
63	If freight, delivery, or shipping is an additional cost to the Sourcewell participating entity, describe in detail the complete freight, shipping, and delivery program.	<p>Deliveries from Dealer to Sourcewell Members shall be FOB, Sourcewell Members Designated Location for Orders within the United States, and FCA, Sourcewell Members Designated Location for Orders outside of the United States. Exceptions include Alaska, Hawaii, the Northwest Territories, Nunavut and Yukon, where additional freight charges apply and will be quoted upon request. For deliveries in Alaska, a service charge equal to five percent (5%) of list price shall be assessed to Sourcewell for Orders up to \$200,000 list price. The service charge for Orders above \$200,000 list price shall be negotiated.</p>	*

64	Specifically describe freight, shipping, and delivery terms or programs available for Alaska, Hawaii, Canada, or any offshore delivery.	All shipments to Alaska and Hawaii and the US Islands are shipped FCA factory; freight prepaid and allowed to port of embarkation. Steelcase reserves the right to select shipping method and the port of embarkation. All charges beyond the point of embarkation are collect. For Alaska and Hawaii (in the United States) and the Northwest Territories, Nunavut and Yukon (in Canada), additional freight charges apply and will be quoted upon request.	*
65	Describe any unique distribution and/or delivery methods or options offered in your proposal.	<p>Our strategically located Regional Distribution Centers (RDCs) work hand-in-hand with our manufacturing network to support and facilitate our manufacturing model. Our manufacturing centers and distribution centers work together for the good of the customer by improving quality, cost, consistency and speed to market. For the US and Canada, we utilize these optimally located RDCs.</p> <p>Distribution Centers</p> <ol style="list-style-type: none"> 1. Grand Rapids, Michigan, U.S. 2. Hazleton, Pennsylvania, U.S. 3. Atlanta, Georgia, U.S. 4. Desoto, Texas, U.S. 5. Rancho Cucamonga, California, U.S. 6. Puyallup, Washington, U.S. 7. Aurora, Colorado, U.S. <p>Our manufacturing process focuses on predicting, identifying and solving problems before they happen. Often, products from different facilities will be used to fill your project order. In these instances, we will consolidate shipments in our country-specific warehouses before delivery to your site.</p>	*

Table 12: Pricing Offered

Line Item	The Pricing Offered in this Proposal is: *	Comments
66	b. the same as the Proposer typically offers to GPOs, cooperative procurement organizations, or state purchasing departments.	<p>Steelcase's goal is to provide the best value at the best price to Sourcwell and its participating entities. Our pricing proposal offers competitive discounting when compared against similar GPOs, cooperative procurement organizations or state purchasing departments.</p> <p>Flexing to meet the specific and unique needs of Sourcwell Members, the proposed product discounting is also "ceiling pricing" meaning prices may be reduced with higher discounting to allow for specific project and volume considerations. The structure of our offering allows our dealers to extend the best value and solutions to each individual project.</p>

Table 13: Audit and Administrative Fee

Line Item	Question	Response *

<p>67</p>	<p>Specifically describe any self-audit process or program that you plan to employ to verify compliance with your proposed Contract with Sourcewell. This process includes ensuring that Sourcewell participating entities obtain the proper pricing, that the Vendor reports all sales under the Contract each quarter, and that the Vendor remits the proper administrative fee to Sourcewell. Provide sufficient detail to support your ability to report quarterly sales to Sourcewell as described in the Contract template.</p>	<p>Steelcase utilizes a participating facilities designation, loading and recognition procedure to verify compliance in recognizing and reporting for our Sourcewell contract. This acts as a formalized process to reconcile our sales with the current Sourcewell Membership list from the Sourcewell website. Also, orders processed by Members with participating Steelcase dealers are to have the Sourcewell contract number noted, and dealers utilize competitive discount authorization quotes specific to Sourcewell, which ensures Members get the correct contract pricing.</p> <p>The Membership list provided by Sourcewell and our automated reporting system is the basis of how we designate, load and recognize Sourcewell product sales. We download the Membership roster from the Sourcewell website quarterly and convert this into a usable file linked to our internal reporting system, quotes and unique site IDs for each Member.</p> <p>Our internal reporting team uses the converted file to match participating entities to the Sourcewell master and any related quotes to the Sourcewell agreement through bilateral agreements and letters of commitment. The Sourcewell master quote and linked quotes are unique numbers that provide as accuracy to insure Sourcewell sales are recognized by Steelcase. So, any Member electing to purchase through the Sourcewell agreement receives pricing from an authorized participating Steelcase dealer who must use the Sourcewell quote number to complete Member transactions.</p> <p>In addition, our reporting system deploys a matching algorithm that automatically matches Member sites (every Member as a unique site ID) to Sourcewell sales through our authorized participating dealers. If we do find that an error was made, and eligible sales were not reported, we will notify Sourcewell, reconcile and report those eligible sales in the next reporting cycle and pay any associated fees, consistent with our agreement and our values and business practices previously mentioned and listed below.</p> <p>The Steelcase reconciliation process for reporting sales data is based upon Sourcewell providing consistent roster formatting. Changes to this format will require a redesign of our data processing. In the event format changes are needed, Steelcase will require advance notification and a reasonable timeframe to determine if a new process can be deployed to maintain accurate reporting.</p>
<p>68</p>	<p>If you are awarded a contract, provide a few examples of internal metrics that will be tracked to measure whether you are having success with the contract.</p>	<p>Steelcase and our dealers believe that continuous measurement and improvement are vital to the success of our partnership. Our data-driven tools and capabilities give us creative freedom and engineering flexibility and, at the center, add customer value and augment our performance. Our comprehensive performance view identifies key areas for improvement and our teams closely monitor the overall contract and key customer sales to ensure growth and satisfaction.</p> <p>Every order, no matter how large or small, is tracked from quote request to successful delivery and installation. Some Key Performance Indicators we recommend tracking and reporting include:</p> <ul style="list-style-type: none"> • Quote turnaround time • Product lead time (PO receipt to delivery at site) • Percentage of shipments received on the date requested • Percentage of on-time and complete shipments • Number of freight, quality and warranty claim issues • Time required to complete punch list issues • Dealer performance and reliability • Weekly backlog reports, indicating orders being shipped in the upcoming weeks

69	Identify a proposed administrative fee that you will pay to Sourcewell for facilitating, managing, and promoting the Sourcewell Contract in the event that you are awarded a Contract. This fee is typically calculated as a percentage of Vendor's sales under the Contract or as a per-unit fee; it is not a line-item addition to the Member's cost of goods. (See the RFP and template Contract for additional details.)	The current Steelcase Sourcewell contract stipulates a 1% administrative fee payable to Sourcewell on a quarterly basis on contract product purchases. We propose the fee on the new contract be calculated at the existing 1% percentage on contract product purchases upon award of the contract payable to Sourcewell for facilitating, managing and promoting the Sourcewell contract.
